LABOR TROUBLES.

Strike Among the Indiana Coal Miners.

A LONG STRUGGLE EXPECTED.

A Mass Meeting at Brazil Endorses the Action of the Strikers—Threatening Trouble Among Pittsburgh Iron Workers—Railroad Miners May All Be Called Out Again—Other Labor News.

BRAZIL, Ind., Nov. 9.—A mass meeting was held here Saturday to consider the report of the meeting of the bituminous miners. George Rohrig was chosen chairman, and Samuel Anderson secretary. Only a few delegates were present from Clay City and Center Point, who reported that they had not been fully apprised in their locality of the steps that were being taken, but thought the majority of the miners would abide by the decision rendered at the meeting. Delegates from Ashboro and Newberg were present and proclaimed in favor of a standstill until their demand was granted.

State President Michael Connisky was present and addressed the meeting. He said that he had done all he could to prevent a strike at present, but as one was declared, he intended to stay with the men, and do all he could to bring them out victorious. He spoke at length regarding the harmony and good feeling existing between the bituminous and block miners, and said that he believed that their efforts would be crowned with success, considering the scarcity of coal and the large contracts the operators had entered into. Mr. Connisky said he attended a meeting at Clinton Friday, and the miners at that point are enthusiastic, and speak of the step taken by the miners here in the very highest terms.

It was reported that a few men were working at Clay City and Shelbyville. A committee of three were selected to accompany Mr. Connisky to these mines, and request the men to discontinue work.

A motion was made to censure the national officers for their conduct in this struggle, and endorse the action of the state president. After considerable discussion the motion was voted down.

A vote of confidence was tendered Mr. Connisky.

The strike is on in full force, and the question now being agitated is, how long will it last, and which faction will win?

STRIKE THREATENED.

Thirty-Five Hundred Men Threaten to Quit Work.

PITTSBURGH, Nov. 9.—The present indications in the Jones & Laughlin trouble point to a general strike of all the 3,500 men employed in the works. The engineers, who were reduced in wages 10 per cent., held a meeting yesterday, and, after a lengthy consultation, decided to go to work today as usual and await the decision of the Amalgamated people, directly interested in the hour and reduction question, who will meet this afternoon, and lay their grievances before the Amalgamated officials.

President Weihe will attend, and upon his decision rests the entire responsibility of making a general strike or instructing the men to return to work. Should he decide the grievances serious enough to warrant severe measures the mill engineers, one hundred in number, will quit work at once, and this will practically shut down the mill, as the other workmen will not work with other than union engineers.

Broommakers and Convict Labor.

COLUMBUS, O., Nov. 9.—The Broommakers' union of this city is attempting to suppress the employment of convict labor in the broom manufacturing industry. The C. T. Howard company, the penitentiary employs two union broommakers to teach the convicts the trade at their works in the prison, and the union has notified these men to either leave their positions with the Howard firm or withdraw from the union. The men have decided to withdraw from the union.

Arrested Strikers Released.

GRAND RAPIDS, Mich., Nov. 9.—All the street railway strikers arrested last summer on the charge of conspiring to wreck the wheel pit of the cable line were discharged from custody Saturday by Judge Burlingame. The judge did not enter into the merits of the case but ordered the quashing of the case on the ground that the state law under which the alleged conspirators were held was unconstitutional.

Miners Threatening to Go Out Again.

PITTSBURGH, Nov. 9.—There is a strong probability that the miners who returned to work in the Pittsburgh railroad district are again to be called out on a strike. The operators are discriminating against the leaders, and refuse to employ them. As a result, 2,500 men are still idle, and others threaten to come out again if the leaders of the strike are not given work.

Ontona Commits Suicide in Pittsburgh.

PITTSBURGH, Nov. 9.—Frank H. Doyle, a young electrician, of Cleveland, committed suicide here by taking cyanide of potassium. His death was most painful. Several years ago he was badly disfigured in an explosion at Cleveland, and this is given as the cause of the deed. His parents, in Cleveland, have been notified.

Entire Family Killed.

NASHVILLE, Nov. 9.—An ox team attached to a wagon in which John Henry, a farmer, his wife and two children were riding, ran away down Chilhowee mountain, near Knoxville, yesterday afternoon. Henry and his family were thrown over a precipice one hundred feet high and all killed.

RUMORS OF A DISASTER.

A Report That the Chilians Had Blown Up the Baltimore.

WASHINGTON, Nov. 9.—A rumor was current here late Saturday night that the United States steamer Baltimore, now in Chili, had been blown up by the Chilians, and that sixty-nine sailors had been killed. The rumor spread with great rapidity and news centers were crowded with people seeking information as to its truth. It could not be traced to any reliable source.

Secretary Blaine and Secretary Tracy placed no reliance in the rumor. Mr. Tracy said that he had received a cable dispatch Saturday morning from Captain Schley, of the Baltimore, but it contained no suspicion of impending disaster.

Secretary Tracy at once telegraphed Captain Schley, but up to the present time has not received a reply.

The Baltimore Safe.

NEW YORK, Nov. 9.—The World claims to have received a cablegram from Chili at midnight as follows: "Pure yarn. Baltimore safe and sound in Valparaiso bay."

MOLLY MAGUIRES.

The Society Said to Have Been Revived in Tennessee.

CHATTANOOGA, Nov. 9.—From a reliable source it becomes apparent that the society of Molly Maguires has been revived in the mountains of east Tennessee, after its seeming death in Pennsylvania, and that to the order is due the recent release of convicts leased by the state, in pursuance of a deep laid plan.

The liberation was accomplished by men mostly from Kentucky, who came to the scene ostensibly looking for work, and were quartered in the cottages of the resident miners, the local leaders having gone to Knoxville, which, by the way, was the understood signal for the raid.

Another singular feature appears in the meeting of the Welsh Eisteddfod in this city, the trouble culminating at Briceville that night.

The membership of the Eisteddfod is largely made up of miners in Georgia and Alabama, and it is understood by those in the secret that the situation in those states was discussed, with what result the near future will tell. The end is not yet; the movements so far have been open secrets, in certain circles, and it is almost a foregone conclusion that a movement will be made on the Tracy City and Inman convict camps, notwithstanding the strong guards there.

Fire at Canton.

CANTON, O., Nov. 9.—The warehouse of the J. H. McLain machine works, at Canton, took fire at noon yesterday. The building, a two-story frame structure, 85 by 210 feet, was filled with finished products and a stock of supplies and raw material of the Canton Steam Pump company. It was entirely destroyed. The loss to the McLain company is \$40,000; insurance, \$20,000. The Canton Steam Pump company's loss is \$10,000 with no insurance. The Harwood Surgical and Dental Chair company sustains a severe loss, the fire having communicated to their lumber yard.

Cash Box Stolen.

DAYTON, O., Nov. 9.—Saturday morning while Andy Weingartner, a market man, was packing his trays, fruits and vegetables, preparatory to leaving the market house to go home, a young man, aged nineteen, sneaked in and stole a tin box containing \$160, which had been left in charge of Miss Lizzie Weingartner, and had been placed on top of the counter. After grabbing the box, the young thief made a dash for the door and escaped. The police were notified, and have a description of the lad, but up to the present time has not captured him.

The Next Victim for the Executioner.

COLUMBUS, O., Nov. 9.—The next man to be executed at the penitentiary annex is William Fitzgerald, the murderer of a Youngstown policeman. The date of his execution is Nov. 19. His case comes up in the circuit court of Mahoning county next Tuesday, and although it is thought that he must shuffle off at the appointed time, he confidently expects a new trial. Fitzgerald's young wife, who has been almost a daily caller at the annex since his confinement here, is mysteriously missing.

Flour Mills Burned.

LEMA, O., Nov. 9.—The large four-story steam flouring mill owned by J. A. Leatherman, and located at Beaver Dam, six miles northeast of here, was totally destroyed by fire last night together with a large quantity of wheat. The fire also badly damaged several other buildings. The loss will reach \$15,000. There is considerable insurance but the amount cannot be learned. The fire started in the boiler-room.

Destructive Forest Fires.

WATERBURY, Conn., Nov. 9.—Terrific forest fires have been raging for the past two days on the mountains near Beac 1 Falls, killing quite a number of horses. Several farmhouses and buildings at High Rock Grove are threatened. A special train of eighty men was sent from Waterbury yesterday to fight the flames. The situation is alarming.

An Incendiary Fire.

CERTLAND, N. Y., Nov. 9.—Early Sunday morning the dairy and barns of John O'Connor, at Homer, were destroyed by fire, with their contents, consisting of 152 head of cattle, six horses, tons of hay, straw, grain, farming implements, wagons, etc. The fire was of incendiary origin.

Twenty-Eight Horses Burned to Death.

CINCINNATI, Nov. 9.—By a fire Saturday night in a stable owned by the Cincinnati Ice company, at Ross Lake, twenty-eight valuable horses perished. The barn was entirely destroyed, entailing a loss of \$6,000, on which there was an insurance of \$1,600. The stock was not insured.

EXPLOSION OF GAS.

Six Miners Meet an Instant Death.

EIGHT OTHERS BADLY INJURED.

A Terrible Accident Takes Place in the Susquehanna Coal Company's Mine Near Nanticoke, Pennsylvania—The Injured Men in Such Condition That They Cannot Be Removed from the Mine, and But Slight Hopes Are Entertained of Their Recovery.

NANTICOKE, Pa., Nov. 9.—A terrible explosion of gas occurred yesterday afternoon in No. 1 shaft of the Susquehanna Coal company's mine causing the instant death of six men and so badly burning and injuring several others that it is feared they will die.

The Killed are:

William J. Williams, fifty years old, leaves a widow and four children.

Henry R. Jones, town clerk of Nanticoke, fire boss, forty years old, leaves a widow and two children.

William Jonathan, thirty-six years old, leaves a widow and four children.

John Arnott, forty years old, leaves a widow and four children.

Caleb Jethen, thirty years old, leaves a widow and four children.

Thomas Lloyd, driver, eighteen years old.

The critically injured are: David Powell, thirty-two years old; David A. Smith, twenty-seven years old; Thomas Thomas, nineteen years old; Henry Williams, Howell Jofhenski, William Evans and two Polders, names unknown.

When the news of the disaster reached this town there was great excitement, as it was feared that many had been killed, and the relatives and friends of those known to be employed in the mine flocked to the scene. While they waited for news from the shaft the scene was harrowing in the extreme. Women and children ran hither and thither, wringing their hands, wailing and weeping and seeking news and sympathy from relatives and acquaintances in the crowd. It was soon learned that, owing to the fact that it was Sunday, there were but fourteen men at work in the mine at the time of the explosion. These were all either killed or badly hurt. The injured were in such a condition that they could not be removed from the mine for some time, and it is feared all will die.

The accident was said to be caused by the explosion of a safety lamp, but little stock is taken in the theory. The gas was undoubtedly ignited by a naked light in the hands of some one of the men.

The damage to the mine will reach \$20,000.

David L. Smith, Henry Williams and Howell Hofenski, three of the miners badly injured by the explosion, have since died. All of the injured miners have been removed to their homes.

It has been definitely ascertained that the explosion was caused by the attempt of one of the miners to change the air current, during which his lamp exploded.

BUILDINGS COLLAPSE.

Miraculous Escape of a Number of Persons from Instant Death.

AKRON, O., Nov. 9.—With only two or three seconds warning, a four-story brick and stone double block on Howard street, in the very heart of the business part of the city, collapsed Saturday afternoon.

The accident happened at 1:05 o'clock, just at a time when many of the employees in the two buildings were at dinner, and when comparatively few people were passing in front of the block. The crash of the falling walls was preceded by a sharp cracking and the falling of plastering within the building. Several persons within took warning and ran to the rear of the building. An instant later the front and side walls went down with a roar that was heard squares away.

Almost miraculously, not a person was killed outright, although several were badly injured. Three ladies who were leaving the building were caught by the falling walls. Miss Zedella Frank was pinioned to the earth by a stone weighing half a ton, which fell upon her dress after she had been knocked down. She escaped with a slight bruise.

Mrs. F. Miner, aged twenty-five, had her right leg crushed to a pulp. She will not probably survive.

Frank Zimmerman, a candy maker, at work in the fourth story, was carried down in the debris and buried beneath a huge pile of the side walls and roof, but escaped with comparatively slight injuries.

Carl Summer, a bookkeeper for B. C. Herrick & Son, was at work at his desk when the crash came. He was badly cut in the face, but was able to reach a window, through which he leaped headlong. His desk was buried beneath tons of debris.

One building was owned by Clark & Isabel, and was occupied by B. C. Herrick & son, jobbers and retailers in crockery and fancy goods. They had just received large quantities of holiday goods, the bulk of which being breakable, will be an absolute loss. The firm places its loss at \$20,000.

The Howard building was occupied by S. B. Lafferty, wholesale candy manufacturer, baker and restaurateur. His individual loss amounts to nearly \$10,000.

Cut His Throat in a Barber Shop.

FORT WAYNE, Ind., Nov. 9.—James Amos committed suicide Saturday evening by cutting his throat with a razor. He slipped into a barber shop, and while stepping into a barber chair grabbed a razor and before he could be stopped, committed the act. He had been out of work for some time, and was despondent, having recently been divorced from his wife.

RAILROAD

Air Brakes Give Way on the Louisville, Evansville and St. Louis Road.

NEW ALBANY, Ind., Nov. 9.—A cattle train on the Louisville, Evansville and St. Louis road became unmanageable on Edwardsville Hill, six miles from this city, at 2 o'clock Saturday, and dashed into the city at the rate of a mile a minute, collided with a yard engine, turning it over on its side and running to the yard of the P. C. C. & St. L. road, where it struck a train standing on the main track, demolishing both engines.

Engineer Peter Hurley had both legs broken and was internally injured; Fireman Dan Maloney had an arm broken and head cut. Both men are seriously injured. The property loss will amount to \$20,000. The accident was caused by the bursting of the compressed air cylinder of the brakes, and the brakemen were unable to stop the train by means of the hand brakes.

Freight Train Wrecked.

MASSILON, O., Nov. 9.—The second section of No. 66, an east-bound freight on the Fort Wayne road, stopped at the curvy in this city to take water, about 6 o'clock Saturday evening, and was run into by the third section. The engine, caboose and eight loaded freight cars were thrown down the embankment. Next to the caboose of the second section was a carload of mules, twenty-five in number. Only four were taken out alive. The man in charge of the stock had a leg broken. The engineer and fireman of the third section saved themselves by jumping.

Wreck on the Lake Erie and Western.

LAFAYETTE, Ind., Nov. 9.—Saturday night a Big Four freight train ran into a work train on the Lake Erie and Western a mile west of Lafayette. Both engines were badly wrecked, the Big Four locomotive and a number of cars being thrown into the ditch. Both engines jumped, and both were hurt, but not seriously. Fireman O'Brien, of the Big Four, and two laborers on the work train, were bruised and cut, but will recover.

Train Derailed by Wreckers.

ATLANTA, Nov. 9.—The outgoing Western and Atlantic passenger train was thrown off the curve yesterday evening by train wreckers at a sharp curve, eight miles from this city, and it is reported that six men were killed. It was the regular passenger express, under Conductor Moore, with Charles Barrett, engineer, which left here at 7:30, and was making a speed of twenty-five miles an hour.

Into an Open Switch.

OTTAWA, Ill., Nov. 9.—Through the negligence of an employe in leaving a switch open a freight train on the Chicago, Burlington and Quincy railroad was wrecked and the engine and thirteen cars totally demolished. Engineer McIlvain, of Aurora, was instantly killed, and the fireman and a brakeman were fatally injured.

Utes Marauding.

DENVER, Nov. 9.—Governor Rountt has received information from Rountt county that the Utes have been off their reservation and roaming through Lilly park and along the White and Yampa rivers, committing depredations, and wantonly destroying game. It is estimated that during the past month they have killed 3,000 deer, mostly does and fawns. The hides of the deer alone are taken, the meat being left to rot.

Held for Burglary.

YOUNGSTOWN, O., Nov. 9.—Willy Riley, an all-round crook, who has already done time in the penitentiary, was arraigned Saturday afternoon in the police court on a charge of burglarizing Music Hall, a saloon on South Market street. Riley offered no defense, and after the testimony of the state was presented he was sent to jail in default of \$1,000 bail to await the action of the grand jury.

Will Never Be Tried.

MASSILLON, O., Nov. 9.—Joseph L. Wise, who was out on \$2,000 bail for having killed a colored man in Canton, June 14 last, while driving in a buggy in the Fourth ward, Saturday, came in collision with another vehicle and was thrown out. His head struck the curbstone and he was picked up unconscious, and remained in that condition until 8 o'clock Sunday morning, when he died.

People's Party in Ohio.

COLUMBUS, O., Nov. 9.—Until the official returns are made it is impossible to know exactly the strength of the People's party, made manifest by the recent election, but it is believed that it will not exceed 10,000, while that of the Prohibition party will probably reach 18,000.

Child Crushed to Death.

ST. MARY'S, O., Nov. 9.—The four-year-old child of Michael Hemmert, a farmer living near Botkins, a village twelve miles southeast of here, fell off a heavily laden wagon, the wheel passing over its head, crushing it to a pulp. Death resulted instantly.

Bishop Gilmore's Successor.

CLEVELAND, Nov. 9.—It is said here on good authority that the Rev. Father Charles McCready, in charge of the Holy Cross parish in New York city, will succeed to the bishopric left vacant by the death of Bishop Gilmore.

Rich Minerals in Indiana.

COLUMBUS, Ind., Nov. 9.—Professor Joseph Haussman, of Helena, Mont., who resides here at present, has been in Browning county prospecting for gold, and reports rich deposits of gold, zinc and silver ore.

Seriously Hurt by a Fall.

KENT, O., Nov. 9.—William Gettys, aged fifty-five, fell down a long flight of stairs Saturday evening, and was, it is feared, fatally hurt. Several bones were broken, and he was also internally injured.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.
MONDAY, NOVEMBER 9, 1891.

Registration.

The places of registration will be open to-day and to-morrow from 8 a. m. until 7 p. m. Voters should remember that this is the regular registration for the annual election next January, and all are entitled to register who would be entitled to vote at that election, that is to say "every male citizen who on that day shall have attained the age of twenty-one years, and shall have resided in the State two years, or county one year, or in the city one year, and in the ward in which he offers to register thirty days, and shall have paid all taxes in accordance with the charter, ordinances and laws of the city of Maysville." We quote from the registration law.

The special registration set for November 17th is for the special election on November 28th, and this special registration is simply for the benefit of those citizens whose names are not now on the registration books. All who registered for the election last January and whose names are now on the books will not, of course, be required to register at the special registration on the 17th.

Mr. Foster's fifty-two-days' rain period resulted in two or three light sprinkles. He will have to do better than that or quit.

An Ohio politician predicts that Cleveland will head the Democratic National ticket in 1892 and McKinley the Republican. The Democrats will welcome a fight between the great advocate of tariff reform and the embodiment of protection.

An Iowa Democratic paper nominates Boies for President in '93. The Governor must be a good man to have routed the Republicans of that old G. O. P. stronghold twice in succession, and he may take second place on the National ticket next year.

The people of Augusta, Ga., believe shoe factories will pay. They will soon start one with a capital of \$300,000. It is well to note in this connection that Lynn, (Mass.) parties are interested in the enterprise. The Ohio Valley and the South will be the center of the shoe manufacturing industry before many years.

Fuel Gas.

Messrs. Edward Fitzpatrick and Julius A. Haag, of Indianapolis, are in town taking a look at fuel gas. Mr. Fitzpatrick is Superintendent of the Natural Gas Company at his home, and has had years of experience in the gas business. He pronounces the Harris process of making fuel gas the greatest invention of the kind he has ever seen.

Reduced Rates.

The C. and O. offers reduced rates for the following occasions: American Society Mechanical Engineers meeting, New York, Nov. 10th-20th; American Fall Stock Show, Chicago, Nov. 11th-21st; National Grange, Springfield, O., Nov. 11th-21st; Southern Surgical and Gynecological Society meeting, Richmond, Va., Nov. 10th-12; Southern Homeopathic Medical Association meeting, Nashville, Tenn., Nov. 11th-13th; Chi Phi Fraternity, Atlanta, Nov. 12th-14th; Episcopal Church Conference, Washington, D. C., Nov. 17th-20th; Knights of Labor meeting, Toledo, O., Nov. 10-12th.

Mr. DELMORE DAULTON, of the Fifth Ward, has been granted a pension of \$8 per month from July 30, 1890. Mr. John Walsh was his attorney.

CHRISTIAN COUNTY farmers were swindled out of \$3,000 last week by a stranger who induced them to take stock in a company to operate a plow factory at Hopkinsville. He got notes from them and then discounted these and skipped.

Women.

(Ram's Horn.)

A woman never forgets the people who speak well of her husband or praise her baby.

The first thing a woman notices about a man is the color of his eyes. She next looks to see whether he blacks his boots.

Nearly every woman would rather have you think well of her mind than of her biscuits.

Ninety-nine women out of a hundred will eat up every cold thing in the house before they will begin to cook for themselves, when there are no men folks around.

When a woman gets to where she no longer takes an interest in a love story, preparations for her funeral might as well begin.

It is plain that the devil is afraid of woman by the way he always fought against her.

As long as there are mothers on earth, God will have somebody to help Him try to tell the world what love is.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

The devil isn't much afraid of the man who isn't sure whether he believes all the Bible.

KENTUCKY CROPS.

Corn and Tobacco All Right, But
Wheat is Suffering from
the Drouth.

What the State Commissioner of
Agriculture Says in His Monthly
Report.

The corn crop has fully matured, and without any special damage. It is now being gathered, and the yield is giving great satisfaction, both in quantity and quality. The average yield per acre will be, according to reports, 37½ bushels. * * *

Wheat—In my October report I fully disposed of the old crop, and it was too early to say as to the acreage and condition of the fall seeding. The fall sowing began in good time, say September 20th, and continued until the ground became so dry and hard that lands could not be broken. Much of the later sowing was in the dust, and while the early seeding came up well, and on favorable soils, where moisture existed, looks well, but the late sowing has been tardy in sprouting and much of it has not yet shown above the surface, but the grain has been at the mercy of the birds and fowls, which have consumed it in large quantities.

The late heavy frosts have browned many of the fields that were young and tender, and the outcome is in doubt, but certainly portends evil to the crop. The acreage sown to wheat to date is about equal to last year, but is fully 10 to 15 per cent. short of the contemplated acreage.

The chief danger to the crop, as can best be judged, lies in the fact that the late seeding will not take sufficient root to resist the frozes and thaws of a hard winter, and the roots will possibly be spewed up and be entirely killed. Putting this and that together, the severe drouth, which has existed now nearly two months, has caused an absence of moisture in the soil that will surely result in more or less disaster, and a full crop, under the circumstances, would be an anomaly. Weather conditions from now on may, to some extent, relieve the situation for the better, or make it worse than now appears. I propose to follow the crop through the season in my reports, and will keep the State advised as to the facts. * * *

Hogs—The condition in fatness of hogs being fed for market, compared with last year, is 95 per cent. This discrepancy is caused largely from the scarcity of old corn through the summer and early fall. The number of hogs being fed for market, compared with last year, is 98 per cent. There is very considerable complaint of cholera, some farmers losing nearly their entire stock.

The condition of beef cattle being fed for market, compared with last year, is 95 per cent; the number being fed for market, compared with last year, is 92 per cent. * * *

Tobacco—The tobacco crop has been safely housed, and most of it cured. It was housed with less than the ordinary damage. The open dry weather during the entire curing season would necessarily warrant good color. The lower leaves, which comprise the trash, will be very bright, both in the burley and dark crop; the next leaves, which compose the lugs, will also be colored. The middle leaves, which compose the real merit of the crop, will be bright, except on old manured low lands, but on new or hill lands, will be very colored; the bud leaf will be found darker than any other portion of the plant. There is a small percentage of green in the crop of few belated farmers, mostly in Western Kentucky. There is a small percentage of sunburn occurring in the patch and on the scaffold, but there will be but little house-burn, but little sand and dirt, and if the crop is not a useful one for working purposes, then my correspondents are mistaken, and we can no longer claim the necessity of dry open weather during the curing season.

The continuous sunshine and dryness of the atmosphere in September and October hastened the drying and curing of the leaf, and the sudden and rapid evaporation of moisture in the tobacco, it is thought, will materially lessen the weight, and make the leaf less elastic and more papery than would have been the case had more moisture existed during the curing period, and the process of curing had been more gradual. This is, to some extent, true, but the full effect can not be told until the houses are opened for stripping and assorting, when the real merits of the crop can be seen. Tobacco has not been yet in stripping case, and until the stem and fibres, which are the reservoirs of the substance of the leaf, can be properly distributed by coming in case, which would, of necessity, make the color more uniform, the real truth of its merits can not be told.

There will be but little damage from worms. The crop will have fair to good length; but, except in localities, will not have extra or even more than average width of leaf. In burley it will be a useful crop for high grade fillers, cigar wrappers and cutters. There will be less fired tobacco than usual because there was no necessity for it. * * *

Many counties are omitted which would fully justify my last report of 5 per cent. increase per acre over last year. I respectfully submit this report as the result of 1,200 answers from the farmers of the State. Very truly,
CHARLES Y. WILSON, Commissioner.

Here and There

Dr. Harry S. Wood, accompanied by his friend Dr. Aultz, of Richmond, Ky., spent Sunday with his parents, Mr. and Mrs. Geo. T. Wood.

Says the Enquirer: "Miss Mae Dobyns, one of Maysville's charming young ladies, has returned home after spending the past fortnight with Miss Lizzie Anderson, of Walnut Hills."

River News.

A company has been incorporated to build another fine bridge across the Ohio river between Cincinnati and Covington.

The amount of coal loaded at Pittsburg and ready to leave on the first water is estimated at from fifteen to twenty million bushels. Very few empty crafts left, and nearly all the towboats of the coal-towing fleet have been repaired.

Commendable.

All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

GEORGE LINDSAY, William Miller and John Ridman escaped from the jail at West Union Saturday by overpowering the guard, but were soon recaptured. Lindsay and Ridman are charged with burglary and the other with murder.

M. R. GILMORE has the largest stock of monuments and tombstones ever in Maysville at one time. He doesn't want to carry this stock over to next season, and parties wanting anything in his line can save from 15 to 25 per cent. by buying now. He offers these low prices for next thirty days only. Call and see for yourself. 7-6

NEW YORK, October 19.—The New York Herald has started its companions of the press by the announcement of a free discussion of the question of the times—"The Silver question." Their columns are open. It matters not, either silver, gold or currency will suit Frank Owens Hardware Company for all goods in hardware, guns, ammunition, coal vases or anything else.

In affirming the life sentence of the Downward gang for assassination of Marshal Sam Vogelsong of Falmouth, Chief Justice Holt, says: "The appellants must, as far as this court is concerned, suffer the punishment which a seemingly merciful jury has awarded for a crime, which, as far as this record shows, is almost without parallel for deliberate murderous intent and want of excuse."

The fight over the college building at Augusta has not been settled yet. Two years ago the Hon. W. O. Blackerby had an act passed giving the academy to the Public School Trustees. They already being in possession of the building, under lease from the Academy Board, still kept it, but refused to acknowledge the Board's right and claimed possession under the act of the Legislature. The Board brought suit for the possession, and at the late term Bracken of Circuit Court, Judge Arthur decided in favor of the Board, and a writ of ouster has been ordered. The Public School Trustees have now threatened that if they are compelled to give up the house they would rent other quarters and tax the district to pay the rent and also to build a new house.

There is None Better.

Dr. R. L. St. John, of Howland, Putnam County, Missouri, takes especial pleasure in recommending Chamberlain's Cough Remedy, because he knows it to be reliable. He has used it in his practice for several years, and says there is none better. It is especially valuable for colds and as a preventive and cure for croup. The most excellent medicine is for sale by Power & Reynolds.

THE MARKETS.

Cincinnati Live Stock Market.

(Saturday.)
Receipts of hogs, 1,581; cattle, 17; sheep, 365. Shipments of hogs, 1,512; cattle, 19; sheep, 378.
HOGS—Common, \$3.00@3.50; fair to good light, \$3.40@3.65; packing, \$3.50@3.85; selected butchers, \$3.90@4.15. Market lower.
CATTLE—Common, \$1.50@2.25; fair to medium, \$2.50@3.25; good to choice, \$3.50@4.00; fair to good shipping, \$4.00@5.00. Market steady.
SHEEP—Common and large, \$3.00@4.75; fair to good light, \$5.00@5.75.
SHEEP—Common to fair, \$2.00@3.00; good to choice, \$3.25@4.00; extra, \$4.50. Market easy.
LAMBS—Common to fair, \$3.25@4.00; good to choice, \$4.25@4.75; heavy shippers, \$4.00@4.50. Market steady.

Cincinnati Tobacco Market.

(Friday.)
With small offerings the market held without change from yesterday, there being a continued firm and steady demand, and sales proved satisfactory. There was an active demand for good and fine leaf and all other grades, and full prices were received. Common and medium leaf was in fair request. The common and low grades held in good demand and sold well.
CUT THE 22¢ hogs, 25¢ from \$1 to \$3.95, 59¢ from \$4 to \$5.95, 67¢ from \$6 to \$7.95, 21¢ from \$8 to \$9.50, 39¢ from \$10 to \$14.75, 23¢ from \$15 to \$19.25 and 13¢ from \$20 to \$24.75.

Deeds and Mortgages Now in the County Clerk's Office Unrecorded.

Below is published a complete list of the deeds and mortgages now in the County Clerk's office unrecorded. The fact that there are so many of them shows how careless many people are in regard to such matters. Law suits and much expense and worry are often avoided by keeping the title to your real estate clear. When you buy a piece of property see that your deed is properly acknowledged and recorded.

Following is a list of the deeds, &c., now in the office named unrecorded because the tax has not been paid, and because the parties interested have failed to order them to be placed on record:

Anderson, Leonard C., from H. Taylor, Commissioner; deed.
Brookover, J. C., from Benj. F. Hook and wife; deed.
Browning, John H., from W. G. Phillips and wife; deed.
Best, Thomas Pickett, from Maysville Cemetery Co.; deed.
Best, Joe. K., from John N. Goodman and wife; deed.
Bentley, Dan'l., from Geo. W. Bennett, Commissioner; deed.
Brittain, Ebenezer, from John M. Duke, Commissioner; deed.
Blair, Thomas, from James H. Groves and wife; deed.
Baugh, Susan A., from Dan'l M. Farris and wife; deed.
Bliss, E., agent, &c., of Drake, from Darius Leachman and wife; deed.
Brown, C. D., from James D. Swinney and wife; deed.
Browning, John N., from John H. Browning and wife; deed.
Bramel, Lewis C., from Mary A. Layton; deed.
Bramel, James O., from William D. Cochran; deed.
Bramel, James O., from Mary E. Moore and husband; deed.
Burns, Isaac and wife, from John J. Klipp and wife; deed.
Bradley, Thos. P., from Richard R. Kirk; mortgage.
Berry, G. Gaines, from T. C. Campbell, Commissioner; deed.
Cleveland, Samuel W., from J. G. Hickman, Commissioner; deed.
Carr, Monroe, from Jacob Lang and wife; deed.
Coburn, Arthur J., from Robert A. Cochran, Commissioner; deed.
Cracraft, Thomas, from Thomas J. Throop, Commissioner; deed.
Clark, Ann, from Wm. T. Clark; deed.
Chandler, Stephen, from Addison Dimmitt; deed.
Clark, Wm. T., from John R. Clark; deed.
Collins, Elias, Jr., from John L. Whitaker, Commissioner; deed.
Collins, Elias, Jr., from Thos. J. Throop, Commissioner; deed.
Cooper, John F., et al., from Benj. F. Cooper and wife; deed.
Calvert, William T., from Charles Calvert and al.; deed.
Craycraft, Samuel, from A. D. Cole, Commissioner; deed.
Crawford, John W., from William W. Clutter and al.; deed.
Crawford, Abram, from Rebecca Cracraft; deed.
Cochran, William D., from Sebina Jane Bramel and husband; deed.
Downing, F. M., from Elias Collins, Jr., and wife; deed.
Dishmore, Richard, from Thomas B. Cracraft and ux; deed.
Dye, Sophia's children, from G. S. Wall, Commissioner; deed.
Doyle, S. S., from Thos. J. Throop, Commissioner; deed.
Dillon, John and Wyatt, from Henry Howard and wife; deed.
Debell, Jeremiah, et al., from John Dickson's heirs; deed.
Dobyns, Desire Ann, from Ben Umstead, et al.; deed.
Dills, Harrison, from David T. Mitchell; deed.
Faris, Daniel M., from Joseph Baugh and wife; deed.
Gibb, Mary D., from Allan D. Cole, Commissioner; deed.
Gault, Ross P., et al., from A. M. J. Cochran, Commissioner; deed.
Grigsby, James H., from G. S. Wall, Commissioner; deed.
Goodman, Nannie, from Trustees of Washington Baptist Church; deed.
Hall, Margaret R., from Lida R. Hull, et al.; deed.
Hines, George Ann, from S. S. Doyle and wife; deed.
Hudson, Robert S., from David L. Wells and wife; deed.
Hawkins, Alexander M., from Harlan P. Whitaker, Commissioner; deed.
Hopper, Samuel and al., from Robert A. Cochran, Commissioner; deed.
Hook, Benj. F., from Wm. J. Tully and wife; deed.
Hughes, Thomas B., from Geo. M. D. Hughes and wife; deed.
Kennard's, John, heirs, by Commissioner; deed of partition.
Lacy, S. E., from Thomas Raymond's widow and heirs; deed.
Lewis and Mason Turnpike Road Company, from James Mcenach; deed.
Mannen, David, from E. Bliss, agent, &c.; deed.
Mannen, David, from Thos. J. Throop, Commissioner; deed.
Mullikin, Samuel, from Nancy Vansickle, et al.; deed.
Mason and Bracken County Union Agricultural Society, from Joseph Frazer; deed.
McIntire, Mary Amelia, from M. C. Hutchins, Commissioner; deed.
Moran, Elizabeth, from John A. Chandler and wife; deed.
Moody, M. P., from Edwin Roe and wife; deed.
Murphyville Scale Co., from W. H. Lawwill and wife; deed.
Mastin, Samuel, from Thomas Sweeney and wife; deed.
McNutt, Joseph, from Allan D. Cole, Commissioner; deed.

Norris, Thornton, from Amanda F. Reese, et al.; mortgage.
Poyntz, Wm. and Nat., from L. B. Goggin, Commissioner; deed.
Pearce, Benjamin, from F. Schatzmann and wife; deed.
Prather, Joseph C., from Joseph K. Sumrall, Commissioner; deed.
Patrons of Fellowship School District No. 4, from John Cox, Sr.; deed.
Pierce, Irene, et al., from Lydia C. Mendel; deed.
Pogue, Henry E., from H. Taylor and wife, et al.; agreement.
Pickett, Thomas J., from Robert Perrine, Sr.; deed.
Pickett, Ida M., from James C. Pickett, et al.; Trustee; deed.
Reynolds, Ella, from Allan D. Cole Commissioner; deed.
Roden, James, from H. Taylor, Commissioner; deed.
Ryan, John, from George Ann Hines, et al.; deed.
Reese, Henry A., from H. W. Reese, et al.; deed.
Stockton, Willis, from Maria E. Ryan; deed.
Stockton, Willis, from Maria Ryan; deed.
Showalter, Benoni, from Perry Jefferson, Commissioner; deed.
Stevenson, Benjamin, from C. W. Howard; deed.
Stiles, A. J., from A. D. Cole, Commissioner; deed.
Smith, Francis B., et al., from A. D. Cole Commissioner; deed.
Taylor, Chas. H., (col.), from Harrison Vance; mortgage.
Trustees of the Presbyterian Church at Washington, from William Warfield, et al.; deed.
Trustees of Mount Tabor Baptist Church, from Thomas Ball and wife; deed.
Trustees of School District No. 59, of Mason County, Ky., from Moses Moore, Sr., and wife; deed.
Trustees of School District No. 59, of Mason County, Ky., from Charles Howard and wife; deed.
Trumbo, G. M., from W. J. Tully; deed.
True, Rachel, and al., from A. M. J. Cochran, Commissioner; deed.
Taylor, H. B., from Wm. A. Taylor; deed.
Umstead, Asa C., from R. A. Cochran, Commissioner; deed.
Umstead, Benjamin F., from R. A. Cochran, Commissioner; deed.
Umstead, George O., from R. A. Cochran, Commissioner; deed.
Umstead, Catharine, from R. A. Cochran, Commissioner; deed.
Umstead, John N., from R. A. Cochran, Commissioner; deed.
Vancamp, John, from Wilfred Ball and wife; deed.
Worthington's, Samuel, heirs; deed of partition.
Woodward, Isaac, from E. C. Dimmitt; mortgage.
Worthington, Jesse, from Ruth D. and Ellen Burgess; release of lien.
Whitaker, Emily, from W. H. Wadsworth, and wife; deed.
Whitaker & Robertson, from John Ryan, Sr., and wife; mortgage.
Wadsworth, W. H., et al., from Geo. W. Sulser, Commissioner; deed.
Whitaker, Walter, et al., from Joseph K. Sumrall, Commissioner; deed.
Whitaker, Walter, et al., from Joseph K. Sumrall, Commissioner; deed.
Whitaker, Walter, et al., from Joseph K. Sumrall, Commissioner; deed.
Whitaker, Walter, et al., from Joseph K. Sumrall, Commissioner; deed.
Wallingford, Joseph W., et al., from A. D. Cole, Commissioner; deed.
Wells, David, from Sabina Wells; deed.
Following is a list of the deeds, &c., not fully acknowledged:
Alexander, Benj., from Jos. Varian and al.; deed.
Bennett, W. H. et al., trustees of school district No. 34, Mason County, from Abraham Brittan and al.; deed.
Burrows, Abe, from Darius Moore and wife; deed.
Belger, George, et al., from Catherine Hay, et al.; deed.

FARM PRODUCTIONS.

Secretary Rusk's Annual Report to the President.

AGRICULTURAL STATISTICS.

The Secretary Expresses Congratulations Upon the Outlook for Agriculture and Calls Special Attention to the Crop Values of the Present Year.

WASHINGTON, Nov. 9. — Secretary Rusk has presented the president his annual report. The report opens with a general expression of congratulation upon the outlook for agriculture, and calls attention to the specially noticeable feature regarding the crop values of the present year. They are so well sustained in the presence of abundant yields that the secretary estimates the probable increase in the value of agricultural products for 1891 over 1890 at not less than \$700,000,000.

Reviewing our exports and imports of agricultural products, Secretary Rusk states that during the first three months of the present fiscal year our exports in cereals alone have aggregated in value over \$76,000,000, adding that the indications now are that the sales abroad of the surplus from our farms will, during the present year, largely exceed those of any previous year. He notes the increase by some \$28,000,000 in the imports of agricultural products during the first ten months, under the present law by comparison with the same period during the last year of the old law, but emphasizes the fact that the increase is confined largely to articles not competing with home products, such as sugar, tea, coffee, etc. At the same time he states that the change in rates has checked the importation of products which may be produced at home. He notes a decrease in tobacco from \$17,000,000 to \$6,000,000; a falling off in foreign barley of nearly three and a half millions; in eggs, one and a quarter million; in horses, a falling off of nearly a million and a half and a gradual decline in the imports of all livestock.

Referring to the import of hides, admitted free of duty, he states that this causes a great depreciation in prices realized for hides of home production, and earnestly recommends that the duty provided for in the reciprocity section of the new tariff law be imposed in all cases where the countries from such hides are shipped have not granted equal concessions in regard to the admission of the agricultural products of the United States.

The secretary, in speaking of the withdrawal by the governments of Germany, Denmark and Italy of the prohibition against American pork, expresses his high appreciation of the president's personal interest in the matter, without which, he says, "this grand result could never have been attained." He reviews the subject of meat inspection, stating that it was not only demanded in order to keep our foreign markets and develop them, but that there was a very general demand for some such inspection by the people of our own country, in many states of which, indeed, laws had been passed providing for a local inspection, which laws had, however, been generally condemned, as interference with interstate commerce. He urges a system of inspection for all articles of food which are the subject of interstate or foreign trade.

He offers considerable evidence as to the efforts of this government to meet all reasonable demands from foreign countries with a view to preventing the transmission through our cattle exports of communicable animal diseases to foreign cattle, citing especially the excellent control of all such diseases within our country, the rigorous inspection of all animals coming into the United States, the inspection of all animals exported, and even of cattle-carrying vessels, in order to secure the well being and treatment of cattle on shipboard. He points out the fact that for more than a year there has been no well authenticated case of the transmission to foreign countries of a single case of pleuro-pneumonia in American cattle, and that in the only alleged cases complained of by the British authorities the diagnosis of the American inspectors on the other side who denied that these were cases of genuine pleuro-pneumonia have been triumphantly vindicated, not only by the life history of the cattle traced by means of our inspection system to the farms from which they were purchased in this country, but by the expert opinions of the highest British authorities obtainable.

The condition of the United States trade and the vigilant supervision of our government, he says, justify the strongest presentation to the British government of the grievance which our cattle raisers suffer unjustly by reason of its arbitrary regulations enforced against American cattle, coupled with an urgent demand for their removal, adding that they have clearly shown to be useless, and that their maintenance can only be regarded as an evidence of unfriendliness. He concludes that "justice as well as proper self-respect demand such a course," and adds that he shall in the absence of the removal of such unfriendly restrictions, feel it his duty to suggest the rigid enforcement of the law now in existence prohibiting import into the United States of all live animals, but at present suspended as a matter of friendship to foreign governments. He says we have far more justification for exclusion from the United States of all animals coming from Great Britain and its dependencies than they have for the interposition of any obstacles to cattle exports from the United States.

The secretary devotes a paragraph to the middleman, and the extent to which he is enabled by various conditions, especially prevalent in America, to absorb a large proportion of the prices paid by the consumers for farm products, thus unduly limiting the profits of the farmer. Admitting the difficulty of remedying this evil, he points out that a partial remedy, to provide which is the duty of his department, is to keep the farmer fully informed in regard to the market values of his wares. This will at least save him from the penalty of ignorance and the unscrupulous greed of traders,

and he concludes by stating that it is his earnest desire and intention to extend the work in this direction until every farmer in the country may know, before he markets his goods, just what their value is in the nearest market. The secretary emphasizes the value of a greater diversification in our crops to take full advantage of our home market, and says, that although noting with satisfaction the effect upon some of our agricultural imports of the present tariff law, it is, nevertheless, strikingly apparent that many of the agricultural products imported are such as could and should be produced in this country.

He congratulates the country upon the success attending the practical application at the department experiment station in Kansas of the alcohol process perfected in the laboratory of the department last year for the extraction of sugar from sorghum. The practical tests have realized all the anticipations formed in the laboratory experiments, and the cost of the process is found to be so trifling as to be practically insignificant. "There seems to be no reason," he says, "why we should not therefore look forward with confidence to the day when the \$100,000,000 paid by Americans to foreign producers for sugars should be turned into the pockets of our own people."

In all efforts toward diversifying our crops climatic conditions must play an important part, and in this connection he declares his conviction of the importance and value to agricultural interests of the transfer to his department of the weather bureau, a transfer which has, he finds, been generally received with great satisfaction; he instances the great increase since the transfer in signal stations, 690 to 1,200, and of voluntary observers from 1,800 to 2,200. Plans have been agreed upon and undertaken with a view to enlarging and extending the bureau especially in aid of the agricultural interests.

Secretary Rusk devotes considerable space to a review of the work of the bureau of animal industry. Pleuro-pneumonia he regards as quite under control and limited in territory to two or three counties on Long Island and in New Jersey, over which a thorough quarantine is exercised.

He earnestly recommends increased appropriations to extend meat inspection to all applicants. "The benefits," he says, "which have already accrued by the opening up of the foreign markets to pork products, the increased demand for beef products, and the re-establishment of their reputation for wholesomeness and soundness in the markets of the world, together with the protection which this inspection furnishes to our own consumers, amply justify a liberal appropriation."

In reviewing the work of the division of chemistry with reference to the adulteration of foods, the secretary emphasizes especially the adulterations of coffee, which are found to extend to a very large percentage, not only of the ground coffees, but of the coffee bean, wholly artificial coffee beans having been introduced into the market, of which many samples bought on the open market were found to largely consist. These artificial beans are sold to the trade at four cents a pound. In a large measure, they are imported, and the secretary urges that such importations, as well as their manufacture and use in this country, be absolutely prohibited.

Of the rainfall experiments he states briefly that they have been made, but that as regards the production of rain he has no data yet at hand which would justify him in expressing any conclusions on the subject.

In concluding his report he indicates that from the time he assumed the reins of the office he has devoted his personal attention to a general enlargement of the scope of the work of the department in the interest of practical agriculture, especially to the extension of the market for the disposal of the surplus of our great staple crops, including the cereals and our vast animal products, and the enlargement of our productive capacity, so as to achieve the gradual substitution of home-grown for imported products and to bringing the department into such close relations with the farmers as would acquaint them with its work, inspire them with confidence in its ability to serve them, and forcibly impress upon the officers of the department themselves the wants and conditions of the tiller of the soil.

These objects he believes to have been measurably attained, and further he is of the opinion that by steadily keeping them in view, and extending and developing the means already adopted towards their accomplishment, we may reasonably entertain the hope of placing this department upon a plane of usefulness, commensurate with the fondest anticipations of all those who labored so long and so earnestly to raise it to its present official dignity, and to extend its opportunities for valuable work.

San Francisco Wants the Convention.

SAN FRANCISCO, Nov. 9. — M. H. DeYoung, chairman of the committee on transportation for national conventions, received a letter last evening from the Southern Pacific company, saying they would guarantee a round trip rate from Chicago, St. Louis, New Orleans and points no farther east for \$50. This is what DeYoung has worked for, and with this low rate San Francisco will offer to pay the traveling expenses of the Republican convention if it will come here.

Food for the Famished.

ST. PETERSBURG, Nov. 9. — Vast quantities of beet root refuse, mixed with a small percentage of rye flour, is being utilized for bread, and is said to be palatable and nutritious. The frequent reports of dishonesty in the management of funds entrusted to government officials for relief purposes, has caused some falling off in contributions, and there is a growing demand that the expenditure of money donated by private charity be entrusted to private hands.

Anarchists' Memorial Service.

CHICAGO, Nov. 9. — About 2,000 anarchists assembled at Waldheim cemetery yesterday and held memorial services over the graves of Parsons, Spies, Engel, Fisher and Lingg. Speeches were made by Henry Weissman, editor of the New York Bakers' Journal; Morris Schultze, editor of The Arbeiter Zeitung, and H. Mikalanor. Mrs. Lucy Parsons, Mrs. Spies and Miss Spies and other relatives of the dead anarchists were present.

Of Bleached and Turkey Red Damasks at half price. A large, all pure Linen "Huck" Towel at 10c., regular 15c. quality. Our 25c. Damask Towel, with knotted fringe, is a real bargain; you pay 40c. for them elsewhere.

All Linen Crash 4c. Per Yard and Up.

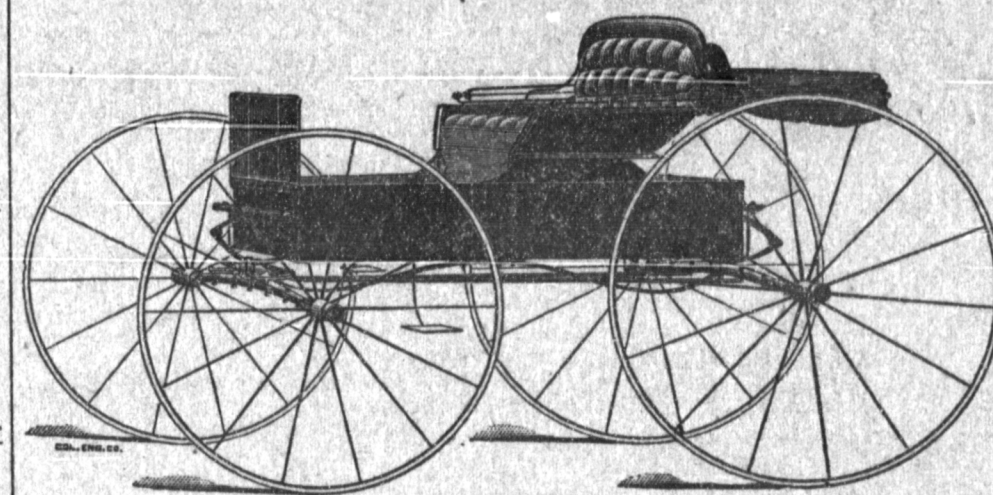

For one week only we offer twelve different shades of an All Wool Broadcloth, one and one-half yards (fifty-four inches) wide, for 39c. per yard. They are fully worth 70c. Our forty-inch Royal Cloths at 45c. a yard are the talk of the town.

BEE HIVE,

ROSENAU BROS., PROPS.

—NOW IS THE TIME TO BUY—

BUGGIES, CARRIAGES AND SURREYS!

In order to reduce our stock, rather than carry them over for another season, we have made a big reduction on all vehicles. Come early and get choice. All goods warranted.
